

Avitech-Aqua Techna joint visit to Aqua feed mills

Gurgaon, Haryana, India – April, 2015

Mr Guillaume Le Reste, Product Manager from **Aqua Techna**, a division of the Techna Group, visited India from the 6th to the 10th of April 2015.

He, along with team Avitech, visited large feed millers in Bhimavaram and Nellore districts.

The main purpose of the visit was to reinforce specialized technologies for the aqua segment that have been developed and researched by the Techna group.

Aqua Techna's specialty products include Proattract, an attractant cum enzyme complex focusing on better protein digestion and optimization of feed cost through reformulation, and Aquaviance, a non-antibiotic growth promoter based on natural ingredients like essential oils and prebiotics.

Aqua Techna products are well researched with trials conducted at several facilities all over the world.

The Avitech team is working jointly with Aqua Techna to promote and establish these products in the aqua sector. The Aqua Techna range of products add a further cutting-edge to Avitech's product basket for the aqua sector comprising of Vitamin and Trace Mineral Premixes, Lipidin-emulsifier cum natural absorption enhancer, Avsorb Forte – toxin adsorbent covering a wide range of mycotoxins and pesticide/chemical residues and Availa Zn – complexed Zinc from Zinpro Performance Minerals of USA.
