## Avitech at the Poultry India Exhibition

### HITEX, Hyderabad, India

Avitech Nutrition Pvt Ltd participated in the 10th edition of Poultry India Exhibition held between 23rd and 25th November at the Hitex Exhibition Complex, Hyderabad, Telangana.

At the exhibition, Avitech showcased its products and services to current and potential customers

Avitech also exhibited its two new products, that is Butirex C4 from Spain and Aviance from France.

Mr. Mahadev V Koushik, President, Sales & Marketing, while talking to a news channel said, “The trend worldwide is to move away from antibiotics. We see similar trends coming into India within the next few years. With these two key technologies Avitech is offering the market, safe and sure solutions to limit antibiotic usage and produce poultry products that are safer for human consumption”.

Avitech also introduced its recently launched product, Metaphos-XT in the exhibition. Metaphos-XT is a Thermostable, Granulated Phytase Enzyme that has been tested and approved by Avitech’s Analytical Division (NABL certified). Metaphos-XT is a premium quality phytase that allows the customer a significant saving on cost.
