

December 2016

Avitech participates in PDFA Exhibition

Jagraon, Ludhiana, India – December, 2016

As a part of its vision to be a nutrition solutions provider for all segments of the animal feed industry, Avitech Nutrition Pvt Ltd participated in the 11th PDFA International Dairy & Agri Expo from 10 to 12 Dec, 2016 at Jagraon, Ludhiana, Punjab.

At the exhibition, Avitech showcased its products and services specifically meant for the dairy sector to its current and potential customers.

The highlight at the show was Avitech's capability to provide the best quality of minerals in the industry. Avitech's Trace mineral premixes are formulated for the high yielding dairy animals. Trace mineral premixes are manufactured based on careful salt selection, testing of all the necessary physical and chemical parameters, proper controls during batch processing and homogenous mixing.

Avitech Vitamin Premixes are formulated to the highest standards of product quality, efficiency and traceability whilst meeting strict regulatory requirements. Avitech also showcased its other products like Avilact, Nutriox, and Avsorb Forte.

Avitech's participation at this show was reciprocated with a generously large number of visitors comprising dairy farmers, feed manufacturers, veterinarians, nutritionists and other business firms.
