

## Avitech Launches Novatan in India

Avitech Nutrition Pvt. Ltd. is pleased to announce the launch of NOVATAN – a distinctly designed product for higher milk yield for the Dairy Industry. The product comes from the globally renowned animal nutrition company, Techna, France.

NOVATAN is a unique blend of essential oils and trace elements, which helps enhance the protein usage in the body by limiting the nitrogenous waste and methane production. It augments rumen function and increases intestinal protein which results in increased milk yields with higher SNF percentage.

NOVATAN effectively controls metabolic disorders and significantly reduces urea concentration in milk. It helps preserve the environment and has been successfully used in many countries throughout the world.

NOVATAN – is natural, effective and recognized world over.
